

Abigail Ackerman

Veterinarian

Veterinarian with 6 years of experience in emergency triage, surgical care, and preventive medicine across small-animal clinical settings. Improved post-surgical recovery rates from 81.1% to 93.7% by updating pain-management protocols and discharge follow-up schedules for canine orthopedic patients. Skilled in digital radiography, anesthesia monitoring, and cloud-based veterinary software, with Fear Free Veterinary Professional Certification and USDA accreditation through the National Veterinary Accreditation Program.

PROFESSIONAL EXPERIENCE

VETERINARIAN | GRANITE CREEK ANIMAL HOSPITAL, PRESCOTT, AZ 2023 – PRESENT

- Managed 137 emergency cases per year, triaging trauma, toxicosis, and acute illness presentations with an average stabilization time of 38 minutes.
- Administered core and non-core vaccines to 278 animals per month, documenting each protocol in cloud-based veterinary software.
- Improved post-surgical recovery rates from 81.1% to 93.7% by updating pain-management protocols and discharge follow-up schedules for canine orthopedic patients.
- Trained 5 veterinary technicians on low-stress restraint and examination techniques, reducing patient stress indicators during routine visits.

ASSOCIATE VETERINARIAN | VERDE VALLEY COMPANION CARE, COTTONWOOD, AZ 2021 – 2023

- Treated an average of 74 emergency cases annually, performing wound repair, fracture stabilization, and foreign-body removal under digital radiography guidance.
- Vaccinated 213 animals per month across a mixed small-animal caseload, meeting USDA accreditation recordkeeping standards.
- Educated 6 community groups per quarter on zoonotic disease prevention, reaching approximately 340 pet owners over 2 years.
- Supervised 4 kennel assistants and 2 veterinary technicians on daily patient handling and post-operative monitoring procedures.

ASSOCIATE VETERINARIAN | MINGUS MOUNTAIN PET CLINIC, PRESCOTT VALLEY, AZ 2020 – 2021

- Managed 53 emergency cases during the first year, including gastric dilatation-volvulus stabilizations and laceration closures averaging 42 minutes each.
- Prescribed medications and set fractures for an average of 19 patients per week, verifying controlled substance logs in compliance with DEA regulations.
- Raised recovery rates for feline surgical patients from 79.1% to 91.8% by introducing standardized post-operative monitoring checklists.

EDUCATION

- Doctor of Veterinary Medicine
Colorado State University, Fort Collins, CO | 2016 – 2020
