ABOUT ME

Financial manager with 12 years of experience supporting client accounts across manufacturing, retail, and professional services while maintaining GAAP compliance in SAP and QuickBooks. Improved financial data accuracy from 91.9% to 98.91% by introducing a three-tier review protocol for all general ledger postings in SAP, and set departmental policy for a 4-person accounting team that sustained a data entry accuracy rate above 99.36% across all monthly posting cycles.

PROFESSIONAL EXPERIENCE

FINANCIAL MANAGER | EDISTO PRAIRIE FINANCIAL GROUP, ORANGEBURG, SC 2020 - PRESENT

- Supported 13 client accounts spanning manufacturing, retail, and professional services, overseeing monthly close activities and GAAP compliance for each entity.
- Improved financial data accuracy from 91.9% to 98.91% by introducing a three-tier review protocol for all general ledger postings in SAP.
- Set departmental policy for a 4-person accounting team, establishing controls that maintained a data entry accuracy rate above 99.36% across all monthly posting cycles.
- Managed a \$437,100 departmental budget, tracking expenditures monthly and delivering year-end variance reports to the CFO within 3 business days of close.

SENIOR ACCOUNTANT | SANTEE BLUFF ADVISORY PARTNERS, COLUMBIA, SC 2016 - 2020

- Supported 9 client accounts with monthly financial reviews, coordinating deliverables across 2 staff accountants and meeting all deadlines within 48 hours of period end.
- Raised financial data accuracy on intercompany entries from 88.4% to 97.61% by building validation checks in Microsoft Excel before posting to SAP.
- Maintained a data entry accuracy rate of 99.23% while processing an average of 1,260 line items per month across all client portfolios.
- Drafted quarterly budget-to-actual summaries for 5 business units totaling \$13.6M in combined revenue, presenting findings to senior leadership.

STAFF ACCOUNTANT | SALUDA CREEK BUSINESS SERVICES, AIKEN, SC 2014 - 2016

- Supported 4 client accounts by preparing trial balances, account analyses, and supporting schedules each month within a 5-day close window.
- Achieved a data entry accuracy rate of 98.71% on 840 monthly transactions by double-verifying source documents against ledger entries in QuickBooks.

- Identified a recurring data mapping error that improved financial data accuracy on expense allocations from 89.3% to 97.42% within one quarter.
