- Slit Lamp Biomicroscopy
- Phoropter Refraction
- Visual Field Analysis
- Tonometry
- EMR Documentation
- Retinoscopy
- HIPAA Compliance
- Ocular Disease Diagnosis
- Contact Lens Evaluation

PROFESSIONAL EXPERIENCE

ASSOCIATE OPTOMETRIST | POPO AGIE VALLEY EYE CARE, RIVERTON, WY 2024 – PRESENT

- Examined 1,847 patients annually by conducting comprehensive refractions, dilated fundus evaluations, and OCT imaging across a mixed-age caseload in a solo-provider satellite office.
- Built an active patient portfolio of 1,130 individuals within 14 months by managing recall schedules and coordinating annual wellness exams.
- Provide patients undergoing cataract and laser vision correction procedures with pre- and post-operative care, including slit lamp assessments and tonometer readings at 1-day, 1-week, and 4-week intervals.
- Reduced average exam time from 28 to 21 minutes per patient by sequencing autorefractor and visual field analyzer testing before the provider encounter.

OPTOMETRIC RESIDENT | BIGHORN BASIN FAMILY VISION, THERMOPOLIS, WY 2023 – 2024

- Examined 1,540 patients over a 12-month residency rotation, performing phoropter-based subjective refractions and slit lamp biomicroscopy under attending supervision.
- Maintained an active patient panel of 680 individuals by tracking follow-up intervals and documenting encounters in the EMR system within 4 minutes of each visit.
- Decreased average exam time from 26 to 19 minutes per patient by reorganizing the pre-testing room layout and standardizing instrument handoff procedures.

EDUCATION

- Doctor of Optometry, University of the Incarnate Word Rosenberg School of Optometry, San Antonio, TX | 2019 – 2023
