

Ifeoma Lindgren

NICU Charge Nurse

NICU charge nurse with 12 years of experience across Level II and Level III units, having decreased hospital-acquired infection rates by 23.1% by standardizing central line insertion checklists and enforcing hand hygiene audits every 2 hours. Trained 22 new hires using a competency-based orientation program and coordinated rapid-response protocols with neonatologists and respiratory therapists that raised infant survival rates by 10.5% for high-acuity admissions. Credentialed in the Neonatal Resuscitation Program and proficient in Epic Systems, neonatal ventilator management, and cardiac monitor interpretation.

EDUCATION

- BACHELOR OF SCIENCE IN NURSING I UNIVERSITY OF NORTH CAROLINA AT GREENSBORO, GREENSBORO, NC I 2010 - 2014**

KEY SKILLS

- Neonatal Ventilator Management
- Central Line Care
- Epic Systems
- Infection Prevention Protocols
- HIPAA Compliance
- CPAP Weaning
- Staff Orientation and Precepting
- Cardiac Monitor Interpretation
- IV Therapy Administration
- Quality Improvement Initiatives
- NRP

PROFESSIONAL EXPERIENCE

NICU CHARGE NURSE I UWHARRIE CREEK MEDICAL CENTER, ASHEBORO, NC I 2020 - PRESENT

- Decreased hospital-acquired infection rates by 23.1% across a 28-bed Level III NICU by standardizing central line insertion checklists and enforcing hand hygiene audits every 2 hours.
- Trained 22 new hires over 4 years using a structured competency-based orientation program, cutting average onboarding time from 14 weeks to 9 weeks.
- Raised infant survival rates by 10.5% by coordinating rapid-response protocols with neonatologists and respiratory therapists for high-acuity admissions.
- Directed shift assignments for 9 nurses per shift, balancing patient acuity levels and ensuring HIPAA-compliant handoff reports in Epic Systems within 8 minutes per patient.

NICU STAFF NURSE I HAW RIVER NEONATAL ASSOCIATES, BURLINGTON, NC I 2016 - 2020

- Reduced hospital-acquired infections by 21.1% over 12 months by leading a catheter care compliance initiative and retraining 7 bedside nurses on sterile technique.
- Mentored 16 new graduate nurses over 4 years, improving their NRP skills assessment pass rate from 76% to 97.09% on the first attempt.
- Increased infant survival rates by 10.6% for extremely low birth weight neonates by initiating golden-hour thermoregulation and vascular access protocols.
- Monitored ventilators and cardiac monitors for up to 3 critically ill neonates per shift, communicating parameter changes to the attending physician within 4 minutes.

NICU RN I ENO RIVER COMMUNITY HOSPITAL, HILLSBOROUGH, NC I 2014 - 2016

- Supported a unit-wide infection prevention campaign that lowered hospital-acquired infection rates by 20.8% in a 20-bed Level II NICU over 18 months.
- Completed staff training modules 34.3% faster than the unit average by using simulation lab sessions and bedside return demonstrations.
- Managed IV therapy equipment and CPAP devices for 2 to 3 neonates per shift, documenting all assessments in Epic Systems before each handoff.
