Percy Larsen

Audio Visual Specialist

Certified Technology Specialist (AVIXA) with 6 years of experience operating Crestron, Extron, and QSC systems for live events serving up to 1,350 attendees. Skilled in event AV operations, preventive maintenance, and pre-event safety checks.

PROFESSIONAL EXPERIENCE

2023 - Present

Audio Visual Specialist | Shenandoah Ridge Conference Center, Waynesboro, VA

- Passed 13 of 13 consecutive quarterly OSHA and equipment safety compliance audits by creating standardized pre-event checklists for all AV gear.
- Maintained equipment uptime at 98.54% across 28 LCD projectors and Crestron control systems by scheduling preventive maintenance every 45 days.
- Controlled lighting and sound for corporate conferences and live performances serving up to 1,350 attendees per event.
- Conducted 9 training sessions per quarter for non-technical staff on Extron signal routing and presentation equipment operation.

2021 - 2023

AV Technician | Blue Ridge Event Productions, Harrisonburg, VA

- Operated sound and lighting rigs for concerts and galas averaging 740 attendees, managing Crestron and QSC consoles during performances and intermissions.
- Raised equipment uptime from 93.16% to 98.53% by building a parts tracking spreadsheet in Microsoft Excel that cut reorder delays by 4 days.
- Notified supervisors when major equipment repairs were needed, documenting faults with photos and condition reports that helped the team pass all 6 semi-annual compliance reviews.

2020 - 2021

AV Technician Assistant | Valley Forge Media Services, Staunton, VA

- Set up and tested LCD projectors, wireless microphones, and Extron switchers for events serving 210 to 860 attendees.
- Supported compliance audit preparations for the annual OSHA facility inspection, which closed with no citations.
- Managed cable inventory of 1,430 items and flagged worn connectors, keeping equipment uptime at 96.5% for the rental fleet.

EDUCATION

BS, Communication Studies

James Madison University, Harrisonburg, VA | 2016 - 2020
