ABOUT ME

Certified Supply Chain Professional (ASCM) with 12 years of experience managing warehouse operations, carrier contracts, and logistics budgets up to \$2.53M. Deployed a dual-scan barcode verification process across 4 outbound staging areas that cut lost package incidents by 39.5%. Skilled in SAP, Softeon WMS, and NetSuite ERP with a background spanning freight coordination, capital planning, and KPI reporting.

PROFESSIONAL EXPERIENCE

Logistics Manager I 2020 - Present

Cannon River Distribution Co., Owatonna, MN

- Reduced lost package incidents from 43 to 26 per month by deploying a dual-scan barcode verification process at 4 outbound staging areas, a drop of 39.5%.
- Managed a logistics program budget of \$2.53M covering carrier contracts, packaging materials, and warehouse labor, finishing each fiscal year within plan.
- Directed daily task priorities and work assignments for pick, pack, and ship operations averaging 1,270 units per day across 2 shifts.
- Developed capital proposals with cost-benefit documentation for 3 conveyor upgrades, securing approval and reducing pack-line idle time by 22 minutes per shift.

Logistics Supervisor I 2017 - 2020

Blue Earth Valley Freight LLC, Mankato, MN

- Increased warehouse packing throughput by 37.6% by restructuring pack-station ergonomics and sequencing order batches by zone in Softeon WMS.
- Administered an annual logistics budget of \$1.14M, tracking spend against forecasts in Microsoft Excel and presenting variance reports to the operations director each month.
- Stayed current on logistics technology by evaluating 4 WMS add-ons and selecting an automated cartonization module that cut packaging material use by 218 cartons per week.

Logistics Coordinator I 2014 - 2017

Steele Prairie Warehouse Services, Faribault, MN

- Lowered lost package incidents from 27 to 19 per month by implementing scan-and-match checks at dock doors before carrier pickup.
- Tracked inbound and outbound freight using SAP, flagging 6 carrier exceptions per week and escalating resolution within 90 minutes.
- Prepared budget estimates and supporting documentation for 5 logistics improvement proposals totaling \$637,400 over a 2-year planning cycle.
