ABOUT ME

AV technician with 2 years of experience servicing 21 venues across central Washington, deploying and maintaining LCD projectors, wireless microphones, Crestron control panels, and QSC speakers for conferences, live broadcasts, and community events. Skilled in live video switching, Extron signal routing, and cable termination, with a consistent record of closing an average of 23 trouble tickets per week by diagnosing signal-path failures and replacing faulty components.

PROFESSIONAL EXPERIENCE

AV Technician

Cascade Basin Event Services, Ellensburg, WA | 2025 - Present

- Serviced 14 venues across central Washington, deploying and maintaining LCD projectors, wireless microphones, and Crestron control panels for conferences and live broadcasts.
- Resolved an average of 23 trouble tickets per week by diagnosing signal-path failures in Extron switchers and replacing faulty cables within 18 minutes of each report.
- Reduced teardown turnaround time from 52 minutes to 34 minutes per event by pre-labeling cable runs and organizing flight cases by venue layout.
- Switched video inputs between camera feeds, recorded content, and network sources during live-streamed events, monitoring outgoing picture and sound quality on a 6-display wall.

AV Assistant

Kittitas Valley Media Group, Cle Elum, WA | 2024 - 2025

- Serviced 7 locations including hotel ballrooms and outdoor amphitheaters, setting up LCD projectors and QSC speakers for meetings and community events.
- Closed an average of 19 trouble tickets per week, replacing damaged connectors and re-terminating audio and video runs to restore signal feeds.
- Monitored incoming and outgoing picture and sound feeds during 3-camera live shoots, flagging color-balance drift and audio clipping to the director within seconds.

EDUCATION

BS Electrical Engineering Technology

Central Washington University, Ellensburg, WA | 2022 - 2024
