- GPS Grade Control Monitors
- Excavator Operations
- Grader Operations
- Hydraulic Truck Crane Rigging
- Preventive Maintenance
- OSHA Compliance
- Blueprint and Grade Sheet Reading
- Soil Compaction Testing
- Microsoft Excel
- Erosion Control Methods

PROFESSIONAL EXPERIENCE

2023 - Present

Heavy Equipment Operator | Ashuelot Valley Excavation LLC, Claremont, NH

- Operate and maintain a fleet of excavators, graders, and a hydraulic truck crane valued at \$2.35M, completing daily inspections and preventive maintenance on 9 pieces of equipment.
- Achieve grade accuracy within 0.04 feet of design specifications on a 14,200-square-foot commercial pad using GPS grade control monitors.
- Signaled crane operators and riggers during steel placement lifts.
- Study and apply updated OSHA and MSHA regulations before each shift, reducing rework caused by compliance gaps from 7 hours per month to 2 hours.

2021 - 2023

Heavy Equipment Operator | Cold River Site Services Inc., Newport, NH

- Graded subbase for a 11,740-square-foot warehouse foundation, holding finished elevations within 0.03 feet of plan across 47 control points.
- Managed preventive maintenance schedules for equipment valued at \$1.28M, including a bulldozer, front-end loader, and roller compactor.
- Connected hydraulic hoses, belts, and mechanical linkages to tractors pulling scrapers and compaction rollers, completing hookups in under 12 minutes per attachment.
- Prepared a 16,800-square-foot staging area for material storage, grading drainage swales to specification in 3 days.

2020 - 2021

Equipment Operator Apprentice | Granite Ledge Earthworks Co., Lebanon, NH

- Operated a skid steer and backhoe on residential site work, clearing and grading lots averaging 8,400 square feet each.
- Followed site safety regulations and attended weekly toolbox talks, logging 247 consecutive days with zero personal safety violations.
- Assisted lead operators by signaling equipment movement and guiding off-road dump trucks through tight access roads, reducing backing incidents to zero over 9 months.

EDUCATION

AAS, Diesel Power Technology

Vermont Technical College, Randolph Center, VT | 2018 - 2020

CERTIFICATIONS

CCO Mobile Crane Operator Certification, National Commission for the Certification of Crane Operators, required for crane work under OSHA 29 CFR 1926.1427, 2023
