- Digital Radiography (CR/DR)
- PACS
- Fluoroscopy / C-arm
- Portable X-ray
- EPIC EMR
- ALARA Principles
- Patient Positioning
- Infection Control Protocols
- HIPAA Compliance
- Radiation Protection

Professional Experience

New Grad Radiologic Technologist | 2024 - Present
Shields River Community Hospital, Livingston, MT

- Maintained a 3.61% image retake rate over 18 months by verifying anatomical landmarks and exposure parameters before each acquisition on DR and portable X-ray units.
- Operated 3 modalities daily, including digital radiography, fluoroscopy, and portable X-ray, covering inpatient and surgical cases across a 22-bed facility.
- Recorded 0 equipment-related safety incidents across 14 consecutive months by completing pre-shift inspections and documenting any findings on the department maintenance log within 10 minutes of each check.
- Processed completed studies through PACS within 6 minutes per exam, tagging images with correct patient demographics and study descriptions for radiologist review.

Radiologic Technologist Extern | 2023 - 2024
Yellowstone Basin Medical Associates, Billings, MT

- Operated digital radiography and portable X-ray units across 2 modalities during a 640-hour clinical externship, processing exposed images and verifying quality on PACS before release.
- Reduced personal repeat rate from 8.31% to 4.69% over the final 12 weeks of rotation by adopting a checklist for collimation, shielding, and distance verification.
- Uploaded and archived an average of 27 studies per shift into PACS, confirming image orientation and labeling before sending to the reading queue.

Certifications

- ARRT Registered Technologist (Radiography), ARRT, 2023
- Basic Life Support, American Heart Association, 2025
