

Emma Perez

Radiologic Technologist II

ARRT-credentialed radiologic technologist with 6 years of experience performing DR, CT, and portable X-ray exams across hospital, urgent care, and outpatient orthopedic settings. Proposed a same-day add-on scheduling protocol in RIS that cut after-hours overtime by 4 hours per week. Holds ARRT Registered Technologist (Radiography) and ARRT Registered Technologist (CT) credentials, with documented ALARA compliance and PACS workflow optimization skills.

KEY SKILLS

- Digital Radiography (CR/DR)
- CT Imaging
- PACS
- RIS
- Portable X-ray Operation
- ALARA Radiation Safety
- Patient Positioning
- Fluoroscopy / C-arm Assistance
- Infection Control Protocols
- Image Quality Evaluation

PROFESSIONAL EXPERIENCE

Radiologic Technologist II | Osage Bluff Regional Medical Center, Warrensburg, MO
2023 - Present

- Perform 217 monthly patient imaging exams across DR, CT, and portable X-ray, covering inpatient floors, the urgent care bay, and same-day surgical cases.
- Reduced image processing turnaround from 14 minutes to 7 minutes by reconfiguring PACS auto-routing rules and batch-sending protocols.
- Repositioned exam scheduling blocks in RIS to eliminate 35 minutes of daily idle time between procedures, raising department throughput.
- Explain procedures to patients before each scan and monitor positioning throughout exposure to maintain safety and comfort per ALARA principles.

Radiologic Technologist | Blackwater Valley Community Hospital, Sedalia, MO
2021 - 2023

- Completed an average of 183 patient imaging exams per month using digital radiography and portable X-ray units across inpatient and outpatient settings.
- Proposed a same-day add-on scheduling protocol in RIS that cut after-hours overtime by 4 hours per week.
- Performed daily QC checks on DR cassettes and processing equipment, reporting malfunctioning components to the supervisor within 15 minutes of detection.
- Adjusted exposure time and distance settings for 9 exam types based on physician specifications, documenting technical factors in EPIC for each study.

Staff Radiologic Technologist | Prairie Crossing Orthopedic Clinic, Knob Noster, MO
2020 - 2021

- Produced 154 monthly patient imaging exams on a two-room DR system, supporting 3 orthopedic surgeons and 2 physician assistants.
- Kept the two-room DR schedule moving for the surgeons by pre-loading protocols in PACS before each patient arrived.
- Positioned patients and aligned imaging equipment for extremity, spine, and chest exams, following HIPAA documentation standards for all records.

EDUCATION

Associate of Science (AS) in Radiologic Technology
Missouri Southern State University, Joplin, MO | 2018 - 2020
